The Grow course was set up in 2015 by Bishop Ric Thorpe, to come alongside and assist those churches who are intentional about growing their church.

There are opportunities to gather with other churches in learning communities, where you will travel with others throughout the course and be able to learn from, and support one another.

And finally, we offer coaching to the main church leader throughout the duration of the course. Provided by qualified coaches, these sessions give you support that will lead to great actions and outcomes.
